

RW

ROBERT WESSON

Professional Summary

Detail-oriented professional with integrity as a frontline corporate representative. Educated in Programming and finishing degree in CyberSecurity and Computer Science.

Projects

Connect 4 Game Project

Developed a Connect 4 game in C++ featuring two-player mode, dynamic board dimensions, and robust winning condition algorithms.

Implemented a user-friendly interface with personalized player prompts and scoring. Utilized C++ and the Standard Template Library for efficient board management.

Key Achievements:

- Intuitive User Interface
- Dynamic Board Configuration
- Winning Condition Algorithms
- Scoring System Implementation

Laundry Schedule Web App

Built a dynamic web app with HTML, CSS, JavaScript, and MySQL to manage a building's laundry schedule. Features user authentication, schedule viewing, and order tracking.

Tech Stack:

- Frontend: HTML, CSS, JavaScript
- Backend: JavaScript
- Database: MySQL

Highlights:

- Intuitive design with secure user authentication.
- Weekly automated events for schedule and order resets.
